

Memobike the fast and accurate diagnosis

MEMOBIKE

Your ideal team mate

UNIVERSAL, FAST, SIMPLE, AND COMPREHENSIVE

MEMOBIKE 6050 is a High-Tech tool that allows for advanced diagnostics on motorcycles from over 120 manufacturers worldwide. Its constantly updated database includes tens of thousands of vehicle systems, making this tool a standard in the industry.

MEMOBIKE 6050, extremely intuitive and accessible to all users, provides a wide range of functions that make it essential even for the most demanding tuners. A multi-brand diagnosis for motorcycles, ATVs, SBS, jet skis, snowmobiles and light tricycles/quadracycles.

MEMOBIKE 6050 can communicate with all the on-board diagnostic systems of the vehicle (Injection, ABS, Instrument Cluster, Body Computer, TPMS, etc.).

STAND-ALONE

MEMOBIKE 6050 requires no additional hardware (PC, tablet, security keys) or internet connection to perform operations on the vehicle.

SOFTWARE PACKAGES

Choose the solution that suits your needs, thanks to the various software activation options for the tool.

SUPPORT

Technical support by your side to provide you with quick and effective assistance.

FUNCTIONS

- Vehicle selection with image and position of the connector type and cable to use
- Selection by ECU model
- Selection through automatic search
- ECU data reading
- Real-time parameters reading
- Quick reading and clearing of errors on all ECUs
- Actuator tests (injectors, fan, fuel pump, etc.)
- Configurations (zeroing, initializations, key coding, VIN writing, etc.)
- Adjustments (TPS, CO, etc.)
- Data logger (recording parameters in motion/at test bench)

CABLES

Dimsport offers a wide range of high-quality optional wiring harnesses to meet all the needs of repairers and tuners.

INCLUDED IN THE DIAGNOSTIC SYSTEM

- MEMOBIKE6050
- EOBD connection cable
- Euro V connection cable
- Pin-to-pin connection cable (K line)
- Battery clamps cable
- USB cable

DIVAS 6053

This optional will enhance the capabilities of your MEMOBIKE 6050 for a complete tuning of your vehicles.

FUNCTIONS

- Analysis of up to 4 intake channels for carburetor and throttle body synchronization operations
- Two graphical displays available to assist in pressure trend analysis
- Ability to perform tests on electrical components using two power supplies (5 and 12 V) and 3 channels for reading output values (TPS test)

SOFTWARE DYNO BIKE

With MEMOBIKE 6050, it is possible to connect to the Dimsport Dyno Bike power test bench software.

FUNCTIONS

- Ability to interface MEMOBIKE 6050 with the power test bench software for reading up to five user-selected parameters directly from the test bench console via the diagnostic connector
- Clearing DTCs generated during vehicle launch (ABS sensors, oxygen sensors, etc.) directly from the test bench console

DIMSPORT

Price list 2026 (rel. 26/A02)

GENERAL SALES CONDITIONS

This price list is the only valid until its cancellation or replacement which Dismport SRL can carry out at its discretion and without prior notice.

Orders must be forwarded to the staff of Dimsport SRL Sales department by e-mail.

The same will be considered accepted after written confirmation or implicitly upon delivery of the goods.

All prices in this price list are out of taxes and ex works, special packaging not included.

The minimum order is € 300,00, for lesser amounts will be charged, as operating cost, the amount of € 20,00.

TRANSPORT

Transportation costs for both the delivery of products for sale and for the return of goods for repairing are at the Customer's expense.

Before collecting the goods, the Customer shall carry out the inspection of the packages and also of the respective delivery notes: he shall do this either if the goods are collected at Dimsport SRL, or if the transport is carried out by a forwarder agent. In the latter case, the eventual claims shall be addressed to the forwarder agent themselves.

TERMS OF DELIVERY

Dimsport SRL has the right to communicate timing of order fulfillment by phone and/or by fax and/ or by e-mail after having received the order. Dimsport SRL doesn't accept any penalty due to a delay of delivery.

Delays beyond 5 working days on delivery times previously established will be communicated to the customer by Dismport SRL and a new delivery date will be agreed.

TERMS OF PAYMENT

Payment must be done directly to Dimsport SRL by following terms and modality written on invoice, in any case Dismport SRL does not accept any arbitrary and unilateral reductions on invoices amount.

Any possible delayed payment must be the subject of a mutual written agreement.

Interests on delayed payment will be calculated according to the current prime rate, increased of 4 points and of any eventual additional costs.

VALIDITY

The present price list is valid from 01/01/2026.

WARRANTY

Possible manufacturing defects must be notified by the Buyer through written communication (email, fax, registered letter or certified mail), within eight (8) days since they have been discovered.

The warranty for the a.m. defects can be enforced by the Buyer within twenty-four (24) months from the product delivery.

Damages and/or malfunctions due to carelessness and negligence in the use, to wrong installation and /or maintenance and/or reparations, to maintenance and/or reparations carried out by non-authorized staff, and the damages due to transportation are not covered by warranty.

Reparations shall be executed by Dimsport SRL or by the authorized centers after the reception of the goods in carriage-free.

The return of the goods to the Customer will be done in carriage forward.

RESPONSIBILITY

Dimsport SRL has no responsibility, not obligation for accident to people or to goods deriving from the incorrect use of the instruments supplied.

EXEMPTION

All agreements in partial or total exemption to the general conditions of supply and/or with the specific conditions set out about offers or order confirmations, shall result from the explicit written agreement, signed by Dimsport SRL.

SOLVE ET REPETE

The Buyer, who claims for any problems or for any other reason, shall not delay or suspend the established payments or raise exceptions on the obligations of the same payments, nor undertake judicial actions, before having settled them.

CLAUSE OF COMPETENCE

In case of dispute the competent Court will be the one of Vercelli.
